

Reports update and Bug fixes version 2.1.0

Release date: Oct 20, 2020

Harmonizing JEMBI and FGH code

- In the past JEMBI has handed over the epts-reporting module code to FGH.
- There were some bugs in the code related and both teams needed to fix them, so we ended up updating all the indicators we had.
- The update consisted of both teams writing the code from each side and compare the results.

The changes affected the following indicators:

PEPFAR MER 2.4 Quarterly Report

- TX_CURR
- TX_ML
- TX_NEW
- TX_PVLS
- TX_RTT

PEPFAR MER 2.4 Semi Annual Report

- TX_TB
- TB_PREV

MISAU Reports

- SISMA Monthly Report
- SISMA Quarterly Report

IM-ER Reports

- IMER2
- IMER4
- DSD Indicators
